We have decades of experience collaborating with dealers to develop successful private label programs. Private labeling allows retailers to offer distinct products to their customers and is an excellent way to separate themselves from competitors.

Today’s consumers choose private label products for quality, consistency, and affordability. Even in economic downturns, private label goods enjoy steady sales thanks to lower price points which also contribute to higher profit margins. Emphasizing your brand also promotes stronger customer recognition and builds a loyal customer base for long-term business success.

Within our private labeling program, we offer a wide variety of products including power tool accessories, hand tools, striking tools, measuring and layout, toolboxes, gloves, extension cords, work lights, wire mesh and more.
