# Plant Nutrition Overview

What are those 3 big numbers on my fertilizer bag, and why are they important?

Plants require 16 essential nutrients in varying quantities in order to produce their own food through photosynthesis. The three nutrients required in the greatest quantity (called primary or macro nutrients) are Nitrogen (N), Phosphorus (P) and Potassium (K). Every fertilizer label will show the analysis as N-P-K. An analysis such as 18-6-12 contains by weight 18% Nitrogen, 6% Phosphorus (present as Phosphate) and 12% Potassium (present as Potash).

**N- Nitrogen:** Provides plants with the ability to produce more chlorophyll, allowing them to grow quicker. Responsible for overall plant size and dark green color.

**P- Phosphorus:** Aids in root development and increases flower and fruit production and bloom size. Useful during plant establishment and for encouragement of flowers.

**K- Potassium:** Guards the plant against diseases and aids in drought protection and cold tolerance. Also aids in root development and photosynthesis. Useful at the beginning of summer and winter to protect from temperature extremes and to 'harden-off'.

Secondary nutrients required in lesser quantities are Calcium (Ca), Magnesium (Mg) and Sulphur (S).

*Calcium:* Aids in formation and division of cells, encourages soil microbes, increases fruit set, prevents blossom end rot in tomatoes, cucumbers, zucchini and peppers.

*Magnesium:* A key element of chlorophyll production. Makes phosphorus more available to plants.

*Sulphur:* Aids in development of amino acids, enzymes and vitamins. Increases seed production.

Micronutrients needed in very small quantities include Boron (B), Copper (Cu), Iron (Fe), Manganese (Mn), Molybdenum (Mo) and Zinc (Z). Also known as trace elements, micronutrients are often quickly leached out of sandy soils or in areas of high rainfall. Although needed in minuscule quantities, they are an integral part of plant health and development.

Rounding out the list of 16 essential nutrients are Chlorine, Carbon, Oxygen and Hydrogen.

HOLLAND greenhouse

# Granular Fertilizers

- With organic granular kelp.
- Recyclable containers never absorb moisture.
- Easy shelf merchandising.
- Environmentally sound stabilized nitrogen.

Holland Greenhouse
**Bone Meal**
**2-11-0**
Organic. Derived from sterilized fish bone meal. Granular.

Holland Greenhouse
**Veggie and Flower**
**10-15-19**
Stabilized Nitrogen and micronutrients.
BIG SELLER!

Holland Greenhouse
**Evergreen &**
**Broadleaf 14-7-14**
with stabilized Nitrogen and micros for dark green, steady growth.

Holland Greenhouse
**Rose Food 8-14-12**
with stabilized Nitrogen and micro nutrients as required by roses.

Holland Greenhouse
**Tomato Food**
**5-10-5**
with added calcium to prevent blossom end rot.

Holland Greenhouse
**Slow Release**
**Hanging Basket**
**14-14-14**
4 month release for season long feeding.

Holland Greenhouse
**Rhodo & Azalea 6-12-12**
With slow release stabilized nitrogen and micronutrients.

## Water Soluble Fertilizers

- Convenient and soluble, works quickly.
- Easily dissolved in water.
- For use in watering cans or hose end feeders.
- Safe to use with slow releases.

Holland Greenhouse
**All Purpose 20-20-20 Water Soluble**
A complete fertilizer with micronutrients.

Holland Greenhouse
**Evergreen & Citrus 30-10-10 Water Soluble**
A highly available 3:1:1 NPK ratio plus micronutrient package recommended for potted citrus and acid loving plants.

Holland Greenhouse
**Superbloom 10-40-25 Water Soluble**
Produces large, prolific blooms. With micronutrients.

# Orgunique®

## Organic Liquid Fertilizer

### Orgunique® Liquid Fertilizers

Delivers quick results, as nutrients are easily absorbed by both roots and leaves. Pure concentrates and free of added water.

All† Orgunique fertilizers are now certified organic with Ecocert!

**OG Tomato & Vegetable 3-1-4**
Organic concentrate to improve quality and yield in vegetables. Formulated to meet the high nutritional standards of vegetative, fruiting and flowering stages.

**OG Fruit & Berry 2-1-2**
Organic concentrate specially formulated for fruit trees, strawberries, raspberries, blueberries, etc. Produces high quality fruit with good taste and long shelf life.

**OG Biofish 3-1-2**
Organic, deodorized fish based concentrate for all plants. Use as a complete fertilizer or as a supplement for increasing organic matter and improving soil structure. Formulated through an extensive fermentation process creating a complex mix with optimal nutrient availability for enhanced growth.

**OG General Purpose 3-1-3**
Organic concentrate for all types of plants including annuals, perennials, herbs, vegetables, tropicals and landscapes.

**OG Simply Calcium**
A highly available source of liquid calcium to help prevent blossom end rot in fruits and vegetables such as tomatoes, peppers, cucurbits (melons, squash, cucumbers, zucchini) and other plants showing calcium deficiency. Use alone or in conjunction with other fertilizers. Organic and natural.

# Orgunique®

## Organic Liquid Specialty Fertilizer

### Orgunique® Liquid Speciality Fertilizers

Delivers quick results, as nutrients are easily absorbed by both roots and leaves. Pure concentrates and free of added water.

All† Orgunique fertilizers are now certified organic with Ecocert!

**OG Hanging Basket & Bloom 1-1-1**
Organic concentrate for quick and slow release nutrition. Promotes continuous bloom of annuals in all containers without elongating stems.

**OG Orchid Food 2-2-1**
Organic concentrate specially formulated for orchids. Promotes healthy plants and long lasting blooms.

**OG Essential Micros 0-0-1** is an organic source of essential micronutrients for healthy plants. Micronutrients assist in plant growth and in the uptake of major nutrients all plants need. †Ecocert pending

**OG Kelp Boost 0-0-3**
Organic emulsion made from highest grade Canadian Atlantic kelp. An ideal plant supplement that increases vigour and boosts all growth stages.

**OG House Plant & Tropical 2-1-3**
Organic concentrate with added micronutrients. Suitable for all indoor and tropical plants. No unpleasant odour.

# Orgunique®

## Organic Granular Fertilizer & Additives

### Orgunique® Granular Fertilizers & Additives

Free of fillers, organic granulars provide natural slow release nutrients and enhance microbial activity in the soil.

All† Orgunique fertilizers are now certified organic with Ecocert!

**OG Bone Meal Plus 4-13-0 +13Ca**
Organic. Derived from sterilized fish bone meal, guano soft rock phosphate and humic acid. Use with bulbs, roses, shrubs, trees, cacti and perennials.

**OG General Purpose 4-3-9**
Organic slow release formula for gardens, flower beds, lawns and container plants.

**OG Soil Acidifier**
Lowers soil pH with fast acting sulphur granules. Excellent for hydrangeas, blueberries, rhododendrons, azaleas, camellias and hellebores.

**OG Tomato & Vegetable 4-3-7**
Organic, balanced nutrition with added calcium and kelp for all vegetables. Produces stronger plants with improved yields and taste.

**OG Cactus & Succulent 2-5-5**
For maintaining health and vigour in indoor succulents and cacti. Organic ingredients release nutrients slowly. Contains Calcium for healthy leaf development.
†Ecocert pending

**OG Compost Activator**
Organic, safe and easy to use. Stimulates quick breakdown of organic waste and converts it to available nutrients.

**OG Humik**
Organic soil amendment from humic acid derivatives containing some nitrogen, phosphorus and potassium and essential micronutrients. Improves soil structure, enhances microbial activity, improves nutrient retention and absorption.

**OG Diatomaceous Earth**
For use as a soil amendment to increase water and nutrient uptake and improve soil structure. Promotes healthier roots and more vigorous plants.
†Ecocert pending

**OG Blood Meal 12-0-0**
Organic fast release nitrogen product to promote strong growth. Also an ideal stimulant for microbial activity.

## Bagged Organic Fertilizer

### Orgunique Bagged Fertilizers

Free of fillers, organic granulars provide natural slow release nutrients and enhance microbial activity in the soil.

All† Orgunique fertilizers are now certified organic with Ecocert!

**OG General Purpose Food 4-3-9**
Organic, slow release formula for gardens, flower beds, lawns, and container plants.

**OG Tomato & Vegetable 4-3-7**
Organic, balanced nutrition with added calcium and kelp for all vegetables. Produces stronger plants with improved yields and taste.

**OG Bone Meal Plus 4-13-0+13Ca**
Organic. Derived from sterilized fish bone meal, guano soft rock phosphate and humic acid. Use with bulbs, roses, shrubs, trees, cacti and perennials.

**OG Lawn Food 8-2-3**
Organic, providing quick and slow release of nutrients for balanced, continuous feeding. Non leaching, safe for kids and pets, stimulates microbial activity. Covers up to 4,000 sq.ft.

| Product | Item # | Unit Size | Qty | UPC Code |

# Liquid Products

- All concentrates with *Ascophyllum nodosum* Kelp extract.
- Makes 4 L with only 1 tbsp.
- No more messy mixing.

**GP Rose Food 5-17-12**
For healthy growth and increased pest and disease resistance. Makes 93 L.

**GP All Purpose 10-10-10**
A balanced blend for all plants, including houseplants. Makes 104 L.

Also available in 5 kg!

**GP Transplanter with I.B.A. and Kelp.** Builds a strong root system and reduces transplanting shock. Available in 1 kg and 5 kg sizes.

**GP Tomato Food 9-11-11**
Great for container or field grown tomatoes. A big seller! Makes 101 L.

**GP Quick Green with Iron 5-0-0+7.2 Fe**
Quickly corrects yellowing in leaves. Creates dark green foliage. Great for all plants including lawns, houseplants, herbs and leafy vegetables, too. Makes 106 L.

# Small Shelf Pack - Blended Fertilizers

- With organic granular kelp.
- Recyclable containers never absorb moisture.
- Easy shelf merchandising.
- Environmentally sound stabilized nitrogen.

**GP Palm & Tropical**
**9-3-9**
Specially formulated for all outdoor and indoor tropicals, including hardy palms, bananas, house-plants and more. Feeds continuously for 4-6 weeks. With kelp, micros and stabilized nitrogen. Now also in 500 g.

**GP Bulb Food**
**2-9-6**
With kelp and potash for winter hardiness.

**GP Grapevine Food**
**15-10-15**
Stabilized Nitrogen and micronutrients.
Grow grapes like a pro!

**GP Berry & Tree Fruit 10-6-9**
With boron to aid in fruit set. Organic based.

**GP Perennial & Vine**
**8-12-16**
For all herbaceous plants and vines.

| Product | Item # | Unit Size | Per Case | UPC Code |
|---|---|---|---|---|
| GP Berry & Tree Fruit 10-6-9 | T-7145153 | 1.8 kg | 6 | 7 77960 40030 9 |

# Small Shelf Pack - Simples

- Professional grade additives and supplements for home gardeners
- Recyclable containers never absorb moisture.
- Easy shelf merchandising.

**GP Aluminum Sulphate**
An excellent soil acidifier. Lowers pH. Fast acting. Turns hydrangeas blue.

**GP Dolomite Lime**
Neutralizes acidic soils, provides calcium and magnesium. Naturally mined. Turns hydrangeas pink.

**GP Super Phosphate 0-45-0**
Stimulates root growth. A readily available source of phosphorus.

**GP Epsom Salts**
Good source of magnesium. Produces more flowers, makes plants bushier. Flower colour intensified. Increases uptake of nitrogen and phosphorus.

**GP Granular Kelp**
Excellent organic soil conditioner and potash source.

**GP Muriate of Potash (Potassium Chloride) 0-0-60**
Plant fortifier and antistress agent. Increases disease resistance and aids in winter hardiness. Use as is or dissolve in water.

| Product | Item # | Unit Size | Per Case | UPC Code |
|---|---|---|---|---|
| GP Aluminum Sulphate | T-7145143 | 2 kg | 6 | 7 77960 40020 0 |

## Slow Release Fertilizers

- Season long feeding with just one application.
- Grow plants like the pros!
- Encourage healthy growth and high quality plants.
- Safe to use with water solubles.

**GP Slow Release Hanging Basket 14-14-14**
4 month release for season long feeding.

**GP Slow Release Perennial & Container 14-14-16**
4 month release for season long feeding. With micronutrients.

**GP Slow Release Shrub & Evergreen 18-6-12**
8 - 9 month release for once a year feeding.

| Product | Item # | Unit Size | Per Case | UPC Code |
|---|---|---|---|---|
| GP Slow Release Hanging Basket 14-14-14 | T-7144593 | 1.8 kg | 6 | 7 77960 25100 0 |

# Water Soluble Fertilizers

- Convenient and soluble, works quickly.
- Easily dissolved in water.
- For use in watering cans or hose end feeders.
- Safe to use with slow releases.
- With **blue lids** for easy identification!

Water Soluble

**GP Superstarter 10-52-10 Water Soluble**
High in phosphorus for strong and rapid root growth. Dissolves easily in water. Perfect for new plantings. In 1.2 kg and 400 g.

**GP Evergreen & Citrus 30-10-10 Water Soluble**
A highly available 3:1:1 NPK ratio plus micronutrient package recommended for potted citrus and acid loving plants.

**GP All Purpose 20-20-20 Water Soluble**
A complete fertilizer with micronutrients.

| Product | Item # | Unit Size | Quantity | UPC Code |
|---|---|---|---|---|
| GP All Purpose 20-20-20 Water Soluble | T-7147323 | 3.5 kg | 60/half skid | 7 77960 45020 5 |
| GP Evergreen & Citrus 30-10-10 Water Soluble | T-7147383 | 1.2 kg | 6/case | 7 77960 45060 1 |
| GP Superstarter 10-52-10 Water Soluble | T-7307783 | 400 g | 12/case | 7 77960 00054 7 |
| GP Superstarter 10-52-10 Water Soluble | T-7307784 | 1.2 kg | 6/case | 7 77960 00055 4 |

# Large Pack Blended Fertilizers

- With granular kelp.
- Environmentally sound stabilized nitrogen.

**GP Veggie & Flower**
**10-15-19** with micronutrients. For vegetables, shrub beds and flower gardens. Organic based with stabilized nitrogen for continuous feeding. Recommended by master gardeners.

**GP Rhododendron & Azalea Food 6-12-12**
with micronutrients and stabilized nitrogen. A nutritionally balanced diet for growing healthy rhododendrons, azalea, camellia, holly, hydrangeas, and all acid-loving plants.

**GP Bonemeal 2-11-0**
Organic. Derived from sterilized fish bone meal. A long-term source of phosphorus. For planting trees, shrubs, flowers and bulbs. Granular.

**GP Rose Food 8-14-12**
with micronutrients and stabilized nitrogen. Has added sulphur, magnesium and iron for greener leaves and brighter blooms.

**GP Evergreen & Broadleaf 14-7-14**
with micronutrients. Has added iron, magnesium and sulphur for deep green foliage. With stabilized nitrogen for continuous feeding.

**GP Berry & Tree Fruit**
**10-6-9 + Micros**
Organic Based. With boron to aid in fruit set.

| Product | Item # | Unit Size | Units per Pallet | UPC Code |

# Country Green Lawn Fertilizers

- Professional lawn fertilizer for the home gardener.
- Slow release nitrogen available from environmentally sound stabilized nitrogen.
- Creates even, steady growth without sudden surges.

**Superlawn Fertilizer 32-4-8**
50% Stabilized Nitrogen, Iron and Micronutrients.
Quick green-up and long release for a perfect lawn all season.

**Seed & Sod Starter 16-32-6**
50% Stabilized Nitrogen.
High in phosphorus. For faster establishment of seed or sod.

**Fall Winterizer 15-0-30**
65% Stabilized Nitrogen.
Great fall colour with quick spring green-up.

Handygrip size perfect for small yards or patching.

**Lawn Food 15-2-3**
Fast greening formula with 30% Stabilized Nitrogen. Liquid lawn food for a thick, green lawn. No measuring, no mixing. Simply attach and spray.

**Moss Away 5-0-0 Liquid Lawn Food**
Chelated with 18.6% Ferrous Sulphate.
Controls lawn moss infestations while making your lawn a deep green colour. Simply attach and spray.
