*Rugged
Gripped Tires*

CH-81008A

80 Lb Ice Melt Spreader 1/1 CASE

- 80 lb Capacity hopper with enclosed gear system to withstand the elements, supported by a rugged powder coated steel frame
- Recommended for use with salt, Halite, potassium chloride, magnesium chloride and calcium chloride (small and pelletized particulates)
- Conical auger assembled with spreader
- Front and side baffle system allows for precise control of spread pattern
- Includes snow/rain cover and salt grate
- Includes spiked, Poly auger to tear up clumps and flat, metal agitator

CH-82400B

100 Lb Pro Stainless Frame Spreader 1/1 CASE

- Designed to handle the inconsistent properties of rock salt
- Oversized stainless steel slide gate keeps rock salt flowing and cuts through clumps
- Spiked Auger keeps salt from clumping
- Enclosed metal gears stay protected from corrosion and debris within a rugged housing
- Gears run smoothly with the built-in fitting
- Adjustable salt baffle system helps spread salt only where you want it
- 1 inch stainless steel tube frame provides full support for a loaded hopper
- 14" tires provide stability over uneven terrain

Ezmelt Ice Melter

SM-46200	4.5 kg	1/4 CASE
SM-47001	10 kg	1/1 CASE
SM-46202	20 kg	1/1 CASE

DON'T FIGHT WINTER WEATHER ALONE, SCOTTS® EZMELT™ WITH HEAT LOCK® TECHNOLOGY IS YOUR SECRET WINTER WEAPON.

The Heat Lock® Technology melts ice 33% faster² and penetrates 87% more ice³ by using a unique, All-in-One Technology. Locked inside each pellet you have:

- Salt, for melting at warmer temperatures (-1 to -9°C)
- Calcium Chloride and an organic melting accelerator (down to -31°C)
- Corrosion inhibitor to help reduce damage to concrete and metal surfaces

1. Less ezmelt™ is required to melt the same amount of ice vs rock salt and leading ice melt brand when used as directed. Based on independent laboratory studies.

2. Versus rock salt and leading blended ice melt product when used as directed. Based on independent laboratory studies at -10 °C.

3. Versus other leading ice melt product when used as directed. Based on independent laboratory studies at -10 °C.

- 2 Sides reflective
- Weighted base
- Folds down for easy storage
- Includes plastic storage case

71050 1 PC Standard Duty 0/20 CASE

71056 3 PC Commercial Duty 0/4 CASE

PRO-TIP:

ONCE YOUR HOOD IS UP, AND FLASHERS ARE ON, YOU SHOULD PLACE TRIANGLE REFLECTOR TRIANGLES NEAR YOUR VEHICLE TO DIRECT ONCOMING TRAFFIC AWAY FROM YOUR VEHICLE.

As a rule of thumb, you should put the first warning triangle 10 feet directly behind your car on the side closest to the road.

Then place the second warning triangle 100 feet behind your vehicle, lining it up directly in the middle of your car's position.

Finally, put the third warning triangle 300 feet from your car, lined up with the side of your vehicle furthest from the road.

This alignment will help catch the attention of oncoming traffic and is the universal sign of distress when on the road.

Always watch for oncoming traffic and other dangers as you place the warning triangles behind your vehicle.

FENCES

Snow Fence

- Provides superior quality barrier to control pedestrian and vehicle traffic around temporary hazards
- Heavy duty material for ultimate weatherproof protection and durability
- Bright and vibrant color for easy visibility
- Can be used in construction sites, snow area or for any other crowd control purposes
