 Holland Imports Inc

OUR STORY

For 50 years, Holland Imports has helped Canadians complete thousands of projects on the job site and in the home through its wide selection of quality tools, hardware, seasonal products, and accessories. Our longevity has earned us the trust & respect of our customers and manufacturers alike.

We have come a long way since our establishment in the early 1970s as an independent hardware store in British Columbia. We now offer more than 25,000 items everyday across many categories in a multitude of brands and price points. We work with end-users and hundreds of factories to continuously develop and launch new products; and we have been able to complement our programs in Hardware, Garden, Patio, and Christmas with an assortment of Distributed Brands. Throughout our growth, we remain family-owned and are firmly committed to creating value for our customers through the quality of our brands, excellent customer service, and competitive pricing.

As we move forward, we are confident that our deep experience in this sector, our hands-on approach, our drive to always do better, and our integrity will be the reasons why customers can count on Holland Imports.

ALL-WEATHER TOUGH!™

The *Rite in the Rain* story began a century ago in the forests of the Great Pacific Northwest. Entrepreneur Jerry Darling recognized the logging industry's need for a durable material that could be written on and survive in poor weather conditions. Jerry developed a special coating that created a unique moisture shield on the hand-dipped sheets of paper that he and his wife, Mary, processed at their home. From these humble beginnings, our first all-weather paper was born. Over the many years we've

perfected and patented our environmentally responsible coating process. Still located in Tacoma, our continued mission is to provide innovative products for professionals and enthusiasts who brave the outdoors.

Scotts SOIL BUILD'R™

Healthy soil is a crucial part of having a healthy lawn. Over time, soil loses its structure and becomes compacted. This impairs its ability to retain and utilize nutrients and water whilst supporting a healthy microbial environment. Currently, there is only one way to restore a lawn's growing habitat, by applying new soil and/or compost commonly called Top Dressing ... until now.

Scotts Soil Build'R™ is a pelletized soil enhancer that is a simple and innovative alternative to top dressing that improves soil's overall health. Use whenever your lawn is looking stressed, tired, or lacklustre every spring and/or fall.
