OUR STORY

For over 50 years, Holland Imports has helped Canadians complete thousands of projects — both on the job site and at home — through its wide selection of quality tools, hardware, seasonal products, and accessories. Our longevity has earned us the trust and respect of our customers and manufacturers alike.

We have come a long way since our establishment in the early 1970s as an independent hardware store in British Columbia. We now offer more than 25,000 items everyday across many categories in a multitude of brands and price points. We work with end-users and hundreds of factories to continuously develop and launch new products; and we have been able to complement our programs in Hardware, Garden, Christmas, and Outdoor Lifestyle, with an assortment of Seasonal Winter Products. Throughout our growth, we remain family-owned and are firmly committed to creating value for our customers through the quality of our brands, excellent customer service, and competitive pricing.

As we move forward, we are confident that our deep experience in this sector, our hands-on approach, our drive to always do better, and our integrity will be the reasons why customers can count on Holland Imports.

SHOPRO[®]

PROFESSIONAL

Featuring new designs and advanced lighting technology, SHOPRO Professional heavy-duty work lights deliver powerful, reliable illumination for demanding jobsites. Built with durable construction and versatile setups, these lights offer improved performance, wider coverage, and dependable operation for construction, maintenance, and industrial applications.

Designed for worksites, garages, and jobsite environments, this 360° LED area light delivers bright, uniform illumination for large work areas and enclosed spaces. Adjustable output levels allow light intensity to match the task, while cordless battery operation provides flexibility where power is not available. The wide base ensures stable placement on floors and work surfaces, and the compact design makes it easy to transport and position. Built with durable materials and weather-resistant protection, this light provides dependable performance for construction, maintenance, and service work.

NEW

360° POWERCORE CORDLESS LED WORK LIGHT - 5,000LM

- **360° Area Illumination:** High-output LED lighting with 1250 / 2500 / 5000 lumen settings for adjustable jobsite brightness.
- **Wide Jobsite Coverage:** 360° light distribution provides uniform lighting for work areas, rooms, and enclosed spaces.
- **Multi-Level Brightness Control:** Low / Medium / High modes allow light output to be adjusted based on task requirements.
- **External Tool Battery Power:** Operates with 18V cordless tool batteries (not included) for flexible jobsite power.
- **Multi-Brand Battery Compatibility:** Includes adapters for DeWalt®, Milwaukee®, Makita®, Bosch®, Metabo HPT®, and RIDGID® batteries (adapters included). No sponsorship or affiliation with third party brands suggested or implied.
- **Integrated USB Charging:** 5V / 1A USB output allows charging of mobile devices and small electronics.
- **Durable Jobsite Housing:** PC + nylon construction built to handle regular use on construction sites and workshops.
- **Weather Resistant:** IP44 rated protection helps resist dust and water spray.
- **Compact Portable Design:** Measures 13.6 in (34.6 cm) high for easy placement and transport.
- **Stable Base Mounting:** Wide base supports stable placement on floors, work surfaces, or temporary jobsite setups.

ADAPTERS INCLUDED

Designed for worksites, garages, workshops, and service environments, this cordless LED tripod work light delivers powerful wide-area illumination for demanding tasks. The adjustable tripod stand extends for elevated lighting coverage while remaining compact for transport and storage. High-output LEDs provide bright, consistent light to illuminate large work areas, job sites, and outdoor projects. Multiple brightness settings allow users to adapt light output for different tasks and conditions. With durable jobsite construction, cordless battery compatibility, and stable tripod support, this light provides dependable lighting for construction, maintenance, and emergency applications.

CORDLESS LED TRIPOD WORK LIGHT - 10,000LM

- **10,000 Lumen Output:** High-output LED provides strong worksite lighting with 5500-6000K daylight colour temperature.
- **COB LED Light Source:** Produces wide, even illumination for work areas, garages, and jobsite tasks.
- **4 Lighting Modes:** High, Medium, Low, and Turbo mode for adjustable brightness based on the task.
- **Multi-Brand Battery Compatibility:** Works with most third-party 18V-20V batteries including DeWalt®, Milwaukee®, Makita®, Bosch®, Metabo HPT®, and RIDGID® (adapters included). No sponsorship or affiliation with third party brands suggested or implied.
- **Adjustable Tripod Stand:** Extends up to 5 ft for elevated lighting coverage across work areas.
- **Foldable Design:** Collapses to 40 in for easier storage and transport between jobsites.
- **Durable Construction:** PC, ABS, and aluminum housing built for workshop and jobsite environments.

18V - 20V COMPATIBLE

ADAPTERS INCLUDED

Built for demanding jobsites, workshops, and outdoor work areas, the DualBeam Compact Rechargeable LED Work Light delivers powerful, adjustable illumination wherever you need it. Dual LED panels and an extendable tripod provide wide, targeted lighting coverage, while the rechargeable battery and USB charging capability offer dependable portable power. Rugged construction and compact folding design make it an ideal lighting solution for professionals, contractors, and emergency use.

NEW

DUALBEAM COMPACT RECHARGEABLE LED WORK LIGHT - 8,000LM

- **High Output Illumination:** Produces up to 8000 lumens with selectable 100% and 30% brightness modes, plus flash mode for emergency visibility.
- **Long Beam Distance:** Bright LED output projects light up to 394 ft (120 m) for large work areas and outdoor use.
- **Dual Adjustable Light Heads:** Two independently adjustable LED panels provide wide coverage and allow light to be directed where needed.
- **Extendable Tripod Stand:** Adjustable tripod raises the light up to 5.2 ft (1.59 m) for elevated lighting and improved jobsite coverage.
- **Rechargeable Lithium Battery:** 4000mAh 18650 battery provides cordless operation with USB-C charging input.
- **Power Bank Function:** Integrated USB output ports allow charging of phones and other small devices on site.
- **Durable Construction:** PA66 housing with aluminum components built for regular jobsite use with IK07 impact resistance.
- **Weather Resistant:** IP65 rated protection helps keep dust and water spray out during outdoor work.
- **Portable Folding Design:** Tripod folds for transport and storage. Carry case included.
- **Compact Storage Size:** Folds down to approximately 27.5 in (69.8 cm) long for easier transport and storage.

CASE

Designed for worksites, workshops, garages, and emergency situations, portable LED work lights provide bright, adjustable illumination wherever you need it. With dual power options, long-lasting battery life, and built-in USB charging, these lights offer unmatched convenience for both professional and personal use. Featuring rugged, weather-resistant construction, versatile mounting options, and customizable brightness levels, they deliver efficient, high-performance lighting for any job

**HYBRID LED TRIPOD
WORK LIGHT - 10,000LM**

- Perfect for construction sites, workshops, warehouses, industrial job sites, outdoor events, and emergency lighting
- **6-Light Modes:** Easily adjust between six brightness levels, delivering up to a max 10,000 lumens on AC power or 5,000 lumens max on battery.
- **Ultra-Bright & Wide-Area Coverage:** Delivers 10,000 lumens with two rotatable light heads, illuminating up to 2,150 sq. ft. (200m²) with 5500/6500K daylight brightness.
- **Dual Power Flexibility:** Runs on 120V AC mains power (100-240V, 50-60Hz, 90W) or a 16V 5200mAh rechargeable Lithium battery (40W).
- **Rechargeable & Long-Lasting:** Up to 2 hours of runtime on battery power and fully recharges in 3 hours for quick turnaround.
- **Compact & Adjustable:** Collapsible design folds to 35" x 7.5" x 4.5" and extends up to 7.5 feet for optimal lighting.
- **USB Power Output:** Features USB-A and USB-C output ports, allowing you to charge other portable devices directly from the light.
- 1.5m 16AWG cord, Type-C cable and Carrying bag included.

CASE

Designed for construction sites, road work, and large work areas, this balloon LED work light delivers powerful, uniform illumination with a high-output 20,000-lumen performance. The balloon diffuser provides soft, glare-free 360° lighting that reduces harsh shadows and improves visibility for crews working at night or in low-light conditions.

Mounted on an adjustable tripod stand for stable placement and elevated coverage, the light sets up quickly and provides reliable illumination across wide jobsite zones. Built for demanding environments with IP54 protection, it offers dependable lighting for contractors, emergency crews, industrial maintenance, and temporary outdoor work areas.

NEW

SITETOWER BALLOON LED WORK LIGHT WITH TRIPOD - 20,000LM

- **20,000 Lumen Output:** High-output LED lighting delivers wide-area illumination for large worksites and job areas.
- **Balloon Diffuser Light:** Provides soft, glare-free 360° illumination for even light distribution and reduced shadows.
- **High-Efficiency LED System:** SMD LEDs with RA >80 color rendering for accurate visibility and detail.
- **Adjustable Tripod Stand:** Heavy-duty tripod extends up to 1.5 m (5 ft) for elevated lighting coverage.
- **Durable Jobsite Construction:** Built for demanding work environments and frequent transport.
- **IP54 Rated Protection:** Dust and water resistance suitable for outdoor and jobsite use.
- **120V Plug-and-Play Power:** Standard 120V / 60Hz input with 3 m (10 ft) power cord included.
- **6500K Daylight Color Temperature:** Bright white light improves visibility for work areas and night operations.

CASE

Designed for worksites, garages, workshops, and service environments, this rechargeable LED inspection light delivers bright, focused illumination for detailed tasks and tight workspaces. The flexible multi-position design allows the light to be used handheld, magnetically mounted, or positioned exactly where illumination is needed. Dual light sources provide both wide flood lighting and focused spot lighting for inspection and repair work. With rechargeable battery power, adjustable lighting modes, and durable jobsite construction, it provides reliable lighting for maintenance, inspection, and service applications.

NEW

RECHARGEABLE LED SERVICE INSPECTION LIGHT PRO

- **1,200 Lumen Output:** COB + LED light sources provide bright flood and focused inspection lighting.
- **Dual Light Source:** COB flood light and LED spot light for wide-area or directional illumination.
- **12in Flexible Gooseneck:** Adjustable neck allows precise light positioning in tight or hard-to-reach spaces.
- **Rechargeable Lithium Battery:** 4000mAh battery provides extended runtime for inspections and service work.
- **3 Selectable Color Temperatures:** Adjustable light tones for different work environments and visibility needs.
- **Magnetic Base:** Built-in dual magnets allow hands-free use on metal surfaces.
- **USB-C Charging:** Type-C input (5V / 2A) with charging cable included.
- **Durable Housing:** Aluminum and rubber construction with IK07 impact resistance.
- **Lightweight Design:** Approximately 300 g for easy carrying and handling during inspections.
- **IPX3 Weather Resistance:** Protection against light splashes for workshop and outdoor use.

6,500 LUMENS LITE LED WORK LIGHT

- **High Output LED Lighting:** Model L002682 delivers 10,000 lumens (70W) and Model L002680 delivers 6,500 lumens (48W) with 5000K daylight color temperature for clear worksite visibility.
- **Durable Weather-Resistant Construction:** Die-cast aluminum housing with protective coating and impact-resistant glass lens for demanding jobsite environments.
- **Efficient Heat Dissipation:** Rear fin-type heat sink improves cooling performance, keeping the unit cooler during extended operation.
- **Adjustable Light Positioning:** 360° vertical rotation and 90° tilt with quick-adjust angle knobs for precise lighting direction.
- **120V Power Connection:** 5 ft power cord with integrated AC outlet allows daisy-chaining up to 8 units for expanded lighting coverage.
- **USB-C Charging Port:** Built-in USB-C port provides convenient charging for mobile devices on the jobsite.

L002680 1/6 CASE

Designed for construction sites, warehouses, and large outdoor work areas, this high-output LED work light delivers powerful 20,000-lumen illumination with a 5000K daylight color temperature for clear visibility across wide jobsite areas. Adjustable light heads provide flexible coverage with 360° horizontal and 270° vertical rotation, and can be detached for independent use when needed. Mounted on a quick-adjust tripod stand, the light can be positioned from low task lighting to elevated area coverage. Built with a rugged die-cast aluminum housing, impact-resistant glass lens, and IP65-rated protection, it provides reliable performance for demanding worksites, emergency response, industrial maintenance, and temporary outdoor lighting.

20,000 LUMENS ELITE LED DUAL HEAD TRIPOD WORK LIGHT

- **20,000 Lumen Output:** High-output LED lighting with 5000K daylight color temperature for large work areas.
- **Adjustable Light Heads:** 360° horizontal and 270° vertical rotation with detachable heads for independent use.
- **Adjustable Tripod Stand:** Quick-release tripod extends from 1.9 ft to 4.8 ft for flexible lighting coverage.
- **Heavy-Duty Construction:** Die-cast aluminum housing with impact-resistant glass lens and polyester powder-coat finish.
- **IP65 Rated Protection:** Dust-tight and water-resistant for demanding jobsite environments.
- **120V Power Connection:** 5 ft power cord with integrated AC outlet allows daisy-chaining up to 8 units.
- **USB-C Charging Port:** Built-in USB-C port for charging mobile devices and small electronics.
- **2.5kV Surge Protection:** Integrated protection helps safeguard connected equipment from voltage spikes.

CASE

Designed for worksites, garages, workshops, and outdoor tasks, this portable LED work light delivers reliable illumination for demanding job environments. The adjustable tripod stand and tilting light head allow precise positioning to direct light exactly where it is needed. Built with a durable aluminum housing, impact-resistant lens, and IP65-rated protection, it provides dependable performance in tough conditions. With bright 6500K daylight output and long-lasting LED life, it is ideal for construction, maintenance, emergency use, and general jobsite lighting.

PORTABLE LED WORK LIGHT - 3,600LM

- **Weather-Resistant Protection:** IP65-rated construction helps protect against dust and water in demanding work environments.
- **Durable Aluminum Housing:** Sealed die-cast aluminum body provides strength and heat dissipation for extended LED performance.
- **Adjustable Lighting Angle:** Tilting head allows precise positioning to direct light exactly where it's needed.
- **Adjustable Tripod Stand:** Telescopic tripod extends up to 4 ft (1.2 m) to elevate lighting for wider work area coverage.
- **Quick Release Mounting System:** Bracket system allows fast setup and easy installation.
- **Impact-Resistant Lens:** Tough protective lens helps withstand impacts and rough jobsite conditions.
- **Comfortable Carrying Handle:** Cushioned handle improves grip and makes transporting the light easier on the jobsite.
- **Daylight Color Temperature:** 6500K CCT delivers crisp, clear illumination for detailed work and improved visibility.
- **Long LED Lifespan:** 30,000 hours of super-bright LED life for reliable long-term lighting.

CASE

NEW

Designed for worksites, construction areas, and temporary jobsite setups, this high-output LED tube light delivers full 360° illumination for large work zones and enclosed spaces. The cylindrical design provides consistent, shadow-free lighting, while the linkable system allows multiple units to connect for expanded coverage. Built with a protective steel guard and weather-resistant housing, it holds up to demanding jobsite conditions. With flexible hanging options, plug-in power, and a portable tube design, this light offers reliable, adaptable lighting for construction, maintenance, and site work.

LINKABLE LED JOBSITE TUBE LIGHT - 7,200LM

- **High Output Lighting:** Produces up to 7200 lumens with selectable high (7200 lm) and low (3600 lm) brightness modes.
- **360° Area Illumination:** Cylindrical LED design provides uniform lighting in all directions for workspaces and enclosed areas.
- **Linkable Lighting System:** Connect up to 6 tube lights together for extended jobsite lighting coverage.
- **Flexible Hanging Installation:** Can be hung vertically or horizontally using the integrated metal hanging grid.
- **Heavy-Duty Protective Grid:** Steel guard helps protect the light during jobsite use.
- **Weather Resistant:** IP54 rated protection helps resist dust and water spray.
- **Jobsite Power Cord:** Includes 6 ft (1.8 m) power cord with 120V input (50-60Hz).
- **Portable Tube Design:** Lightweight tubular housing allows easy transport and setup.
- **Carry Bag Included:** Protective storage bag included for transport and storage.

L003001 1/4
CASE

Designed for worksites, temporary lighting, and large-area illumination, this double-sided LED strip light on reel delivers high-output, flexible lighting for demanding environments. The dual-sided LED design provides strong, uniform light coverage along the entire length, making it ideal for construction sites, workshops, and industrial setups. Built for durability and easy deployment, the reel design allows quick setup, transport, and storage, while weather-resistant construction ensures reliable performance indoors and outdoors.

DOUBLE-SIDED LED JOBSITE STRIP LIGHT REEL - 37,500LM

- **Dual-Sided High Output Lighting:** 1500-1600 lumens per meter with LEDs on both sides for maximum area coverage
- **81.25ft (25m) Reel Length:** Long continuous lighting run ideal for jobsite, tunnel, and temporary lighting setups
- **Linkable System:** Connect multiple reels for extended coverage across large work areas
- **Durable Jobsite Construction:** IP65 weather resistant and IK10 impact rated for harsh environments
- **High Efficiency Output:** 14-16 W/m delivers strong light with efficient power consumption
- **Industrial Power Setup:** 115V input with ballast system supports long-length operation (up to 50 m max)
- **Flexible Installation:** Can be unrolled, mounted, or suspended for temporary lighting applications
- **Heavy-Duty Connectors:** Waterproof male/female locking connectors ensure secure connections on site
- **Long Service Life:** Rated up to 30,000 hours for reduced maintenance and downtime

POWER BARS / OUTLETS

Designed for worksites, garages, workshops, and maintenance environments, this all-in-one PowerStation combines power distribution, lighting, and device charging in a single compact unit. Dual adjustable LED worklights provide focused illumination while six power outlets support multiple tools and equipment simultaneously. With integrated USB charging, durable jobsite construction, and flexible placement options, it delivers convenient power and lighting wherever work needs to get done.

NEW

6- OUTLET POWERSTATION AND DUAL LED WORKLIGHT - 1,000LM

- **6 Power Outlets:** Six NEMA 5-15 outlets allow multiple tools and devices to operate from one power source.
- **High Power Capacity:** 125V / 15A / 1875W rating supports demanding tools and jobsite equipment.
- **Dual LED Worklights:** Two integrated LED lights deliver 500 lumens each (1,000 lumens total) for added workspace illumination.
- **90° Rotatable Lights:** Pivoting light heads direct illumination exactly where it is needed.
- **Dual USB Charging Ports:** Two USB-A ports provide convenient charging for phones and jobsite electronics.
- **4ft - Heavy-Duty 14 AWG Power Cord:** Durable cable ensures reliable power delivery in demanding environments.
- **Dual On/Off Switches:** Independent switches allow separate control of power outlets and lighting.
- **ETL / CETL Certified:** Meets recognized electrical safety standards for dependable performance.

4- OUTLET MAGNETIC POWERHUB WITH LED LIGHT

- **4 Grounded Power Outlets:** Four 5-15R outlets provide convenient power for tools and equipment.
- **High Power Capacity:** 125V / 15A / 1875W rating supports demanding applications and devices.
- **Integrated LED Work Light:** Built-in SMD LED provides 400 lumens of task lighting for work areas.
- **USB Device Charging:** Two USB-A and two USB-C ports allow charging of phones and electronics.
- **Magnetic Mounting Base:** Strong central magnet allows secure hands-free mounting on metal surfaces.
- **Built-In GFCI Protection:** Integrated GFCI helps improve safety in workshops and jobsite environments.
- **5.6ft - Heavy-Duty 14/3 Power Cord:** Durable cable construction ensures long service life and reliable power delivery.
- **ETL / UL / CSA Certified:** Complies with recognized electrical safety standards.

EXTENSION CORD CLASSIFICATIONS

SJEOW / SJTW

Classified as a highly durable extension cord made of thermoplastic TPE rubber (thermoplastic elastomer). This material combines rubber and plastic, making it resistant to damage without losing flexibility. Abrasion and moisture resistant. Rated -40°C

SPT-3

Medium and Light duty cord, commonly used for household appliances and power supply applications.

SPT-2

Light Duty cords are commonly used for indoor applications such as powering floor lamps, charging laptops and phones, holiday decorations and running portable fans.

PXWT

Light Duty - Suitable for connecting indoor appliances such as lamps, fans, table lamps, floor lamps, phone chargers, and small power tools like drills, sanders, or jigsaws indoors. Rated -40°C

INDOOR EXTENSION CORDS

16/2 SPT-2 INDOOR

- **Electrical Rating:** 13A-125V-1625W Safety-Covered: Prevent accidental contact with live terminals.
- **Polarized Connectors:** Reduces the risk of electrical hazards. Insulation: Enhanced insulation for a wider indoor application range.

SNOW BRUSH 36" WITH EVA FOAM

- 36-inch EVA foam head cushions contact and protects vehicle surfaces.
- Ultra-robust polycarbonate scraper clears ice and hard-packed snow with minimal flex.
- Lightweight aluminum handle reduces user fatigue during extended clearing.
- Insulated foam grip improves hold and minimizes cold transfer to the hand.

G-83297 1/12
CASE

TELESCOPIC SNOW BRUSH 52"

- EVA foam head clears snow more efficiently than bristles and protects vehicle paint and trim from abrasion during repeated use.
- Water-repellent head material resists clogging and freezing to maintain sweeping performance in wet-snow conditions.
- Telescoping lightweight aluminum handle extends up to 58 inches to reach rooflines on SUVs and taller vehicles.

G-8360810 1/10
CASE

TELESCOPIC SNOW BRUSH 63"

- 17-inch EVA foam pivoting head: conforms to surface contours for efficient snow clearing.
- 63-inch lightweight aluminum telescopic handle: adjusts reach and reduces tool weight to support extended use.
- Insulated foam sleeve: provides a comfortable grip and reduces cold transfer to the hand during prolonged tasks.

G-84511 1/8
CASE

BLIZZARD BRUSH-ICE SCRAPER

- Plastic scraper removes ice without damaging surfaces, clearing walkways, steps, and other exterior surfaces with controlled, non-abrasive contact.
- Smooth wood handle provides a comfortable grip during extended use and improves control on inclines and uneven footing.
- Bristles remove snow quickly and efficiently from sidewalks, steps, and vehicle surfaces to expedite clearing tasks.

G-84584 1/24
CASE

BLIZZARD TELE ABS ICE SCRAPER

- Aluminum handle extends to 54 inches with a comfort grip for reduced bending and improved control.
- Large brush head with effective bristles and an integrated hand grip to displace and push snow with added leverage.
- Double-sided scraper with larger teeth for breaking ice and a flat edge for scraping remaining frost and residue.
- Lightweight construction minimizes user fatigue during repeated clearing tasks and handheld operation.

G-84871 1/12
CASE

TELESCOPIC SNOW BRUSH 28"44"

- Handle adjusts from 28" to 44" (71-112 cm) to extend reach and maintain precise positioning.
- Head folds to 17" width for wide coverage and folds flat for compact storage.
- Foam head uses three-layer EVA non-scratch construction to protect painted surfaces during repeated passes.

G-86573 1/12
CASE

BLIZZARD 23IN ABS ICE SCRAPER

- 23 Inch aluminum handle with ABS scraper and poly bristle brush
- Comfort grip

MODERN HOUSEWARE

Reliable winter essentials built for everyday use, Modern Houseware offers practical snow brushes and ice scrapers designed for durability, comfort, and convenience. From compact scrapers to extended-reach brush systems, each tool is made to handle harsh winter conditions while making snow and ice removal quick and efficient for drivers on the go.

BRUSH SNOW WICE SCRAPER 24"

- At 24 inches, it's easy to store in any vehicle while still providing effective reach.
- Built to withstand harsh winter conditions for long-lasting performance.
- Perfect for quick and convenient snow and ice removal on the go.

MOD-078930 0/12
CASE

ICE SCRAPER FOAM HANDLE 10"

- Perfect size for quick and easy ice removal from windshields and windows. Soft, non-slip grip provides added comfort and control, even in cold conditions. Small enough to store in a glove compartment or side door for easy access.

MOD-078931 24/96
CASE

34" SNOW BRUSH WITH ICE SCRAPER

- Rugged and durable, this is the ultimate winter multi-use tool
 - 34" long ergonomic handle provides added reach
 - PVC bristles are sturdy enough to brush off the snow, but flexible enough to reach snow in windshield wipers
 - Small and compact size makes the brush easy to stow away in your car or SUV
- Lightweight aluminum body allows you to easily maneuver the brush using only one hand

ICE MELTER

Ezmelt Ice Melter
SM-46200 4.5 kg 1/4
CASE

DON'T FIGHT WINTER WEATHER ALONE, SCOTT'S® EZMELT™ WITH HEAT LOCK® TECHNOLOGY IS YOUR SECRET WINTER WEAPON.

The Heat Lock® Technology melts ice 33% faster² and penetrates 87% more ice³ by using a unique, All-in-One Technology. Locked inside each pellet you have:

- Salt, for melting at warmer temperatures (-1 to -9°C)
- Calcium Chloride and an organic melting accelerator (down to -31°C)
- Corrosion inhibitor to help reduce damage to concrete and metal surfaces

1. Less ezmelt™ is required to melt the same amount of ice vs rock salt and leading ice melt brand when used as directed. Based on independent laboratory studies.
2. Versus rock salt and leading blended ice melt product when used as directed. Based on independent laboratory studies at -10 °C.
3. Versus other leading ice melt product when used as directed. Based on independent laboratory studies at -10 °C.

SHAKER SPREADER

- Saves time and effort compared to hand spreading, increasing efficiency and productivity
- Can be used for a variety of materials including seed, fertilizer, salt, sand, and more
- Helps ensure even coverage, resulting in a healthier, more attractive lawn or garden
- Adjustable settings allow for precise application of materials

S010595 1/12
CASE

HAND SPREADER

- Great for applying grass seed and fertilizer in Spring, Summer & Fall or ice melt in the Winter
- Coverage area up to 1000 sq. ft.
- Ready to use

S010590G 1/10
CASE

SCOTTS WHIRL HAND HELD SPREADER

- Perfect hand-held spreader for small yards
- Great for year-round use to feed, seed, weed and apply ice melt
- Adjustable arm support helps provide maximum comfort
- Holds 139.4 m² (1500 sq. ft.) of product

SM-71006 1/6
CASE

SCOTTS WIZZ YEAR-ROUND SPREADER

- Year-round spreader that can feed, seed, weed and melt
- Battery powered with the control of EdgeGuard® Technology
- One touch, less work/effort versus other hand-held spreaders

SM-71132 1/4
CASE

SCOTTS TURF BUILDER EDGEGUARD MINI BROADCAST SPREADER (UNIT)

- Keeps fertilizer off landscaping, driveways, sidewalks, and out of waterways
- Designed to ensure superior results when used with Scotts® products
- Holds up to 464 m² (5,000 sq. ft.) of Scotts® lawn products
- Fully assembled and ready-to-use
- Redesigned hopper and shaft for improved material flow and greater torque to distribute product

SM-75121 1/3
CASE

SCOTTS TURF BUILDER EDGEGUARD DLX BROADCAST SPREADER (UNIT)

- Keeps fertilizer off landscaping, driveways, sidewalks, and out of waterways
- Designed to ensure superior results when used with Scotts® products
- Holds up to 1,393 m² (15,000 sq. ft.) of Scotts® lawn products
- Fully assembled and ready-to-use
- Redesigned hopper and shaft for improved material flow and greater torque to distribute product

SM-75243 1/3
CASE

SCOTTS TB PRO BROADCAST SPREAD

- EdgeGuard technology ensures you are only applying product on intended surfaces.
- Works with lawn foods, grass seeds, weed control & ice melters for a year-round solution.
- An updated hopper for improved flow; and an agitator designed to minimize jamming of finer materials.
- Holds up to 1,672.2 sq. m (18,000 sq. ft.) of product, meaning fewer trips to refill.

FLAME TECH

The FlameTech® Propane Torch is a high-output heating solution designed for demanding outdoor and industrial applications. Delivering up to 500,000 BTU, this propane-air torch provides powerful heat without requiring oxygen, making it ideal for heating, thawing, and surface preparation tasks. Built for durability and easy operation, it connects directly to standard propane cylinders for quick setup and reliable performance on jobsites, maintenance work, and heavy-duty heating applications.

NEW

PROPANE-AIR TORCH- 500K BTU- STRIKER INCLUDED- 6 PACK DISPLAY CASE (CGA 510)

- **High Output Heating:** Delivers up to 500,000 BTU for heavy-duty heating, thawing, and surface prep
- **Winter & Ice Removal Use:** Ideal for melting ice, clearing sidewalks, de-icing equipment, and frozen surfaces
- **Propane-Only Operation:** No oxygen required for simple setup and reliable outdoor performance
- **CGA-510 Safety Valve:** Built-in cut-off protection helps prevent low-pressure burn back
- **Extended Reach Hose:** 10 ft hose allows safe positioning and flexibility during use
- **Comfort Grip Handle:** Foam handle provides better control for prolonged heating tasks
- **Manual Ignition:** Includes striker for quick and dependable start-up
- **Standard Tank Connection:** Compatible with 20 lb propane cylinders (not included)
- **Retail Display Packaging:** 6-pack floor display, individually packaged for resale

FLAME TECH

Foam Handle
for Comfort

P.O.L. Safety Valve

Ideal for winter conditions and heavy-duty outdoor use, this propane torch quickly melts ice, clears snow buildup, and de-ices sidewalks, driveways, and jobsite surfaces. With high-output performance and fast heat delivery, it helps improve safety and efficiency during cold weather maintenance and emergency situations.

SNOW FENCE

- Provides superior quality barrier to control pedestrian and vehicle traffic around temporary hazards.
- Heavy duty material for ultimate weatherproof protection and durability
- Bright and vibrant color for easy visibility
- Can be used in construction sites, snow area or for any other crowd control purposes
- Heavy duty plastic material is also flexible in cold weather

- Large striking edge (1-1/8" deep) for leveling
- Aluminum handle has overlapping wrap around brace
- 24" blade
- 66" handle

R000180 1/12 CASE

DURABLE • VERSATILE • WEATHER-READY

GSM (GRAMS PER SQUARE METER)

- Indicates fabric weight and thickness.
- Higher GSM = Thicker and stronger tarp.
- Light-duty: ~70-100 GSM | Heavy-duty: 150+ GSM

WEAVE COUNT

- Refers to how tightly the fabric is woven (e.g. 10x10 or 14x14).
- A higher weave count means better tear resistance and durability.

	MIL	GRADE	USES
 EconoShield	3 MIL	UTILITY	Light-duty tarp for temporary coverage and everyday protection
 DuraTuff	4 MIL	STANDARD	Versatile mid-weight tarp designed for general-purpose use
 StormShield	6 MIL	HEAVY DUTY	Heavy-duty weather-resistant tarp built for rugged conditions
 UltraTough	8 MIL	SUPER HEAVY DUTY	Extra-durable, reinforced tarp for all-season protection
 TitanGuard	10 MIL	CONSTRUCTION	High-strength tarp built for demanding applications and long-term use
 ArmorMax	12 MIL	INDUSTRIAL	Industrial-grade tarp offering extreme durability and protection
 ThermaShield	INSULATED	INSULATED	Advanced insulated tarp for temperature control and thermal protection

EconoShield

3 MIL UTILITY TARPS

- Provides light, versatile protection for furniture, tools, plants— ideal for indoor use, storage, painting, events, and garden coverage.
- Waterproof polyethylene coating
