MULTIMOUNT LED RECHARGEABLE  
DUAL LIGHTING SYSTEM  
(SPOT + LANTERN)

360° PORTABLE LANTERN  
DUAL LIGHT OUTPUT  
(TOP + SIDE)

**POWERCORE**  
MAGNETIC MOUNT SYSTEM  
(SECURE HANDS-FREE LIGHTING)

Built for worksites, garages, and service environments, this foldable tower LED light delivers versatile area and task lighting in one compact unit. Adjustable panels provide 360° coverage or focused illumination depending on the job, while the tripod base and detachable light offer flexible setup options. Cordless rechargeable operation allows use without a power source, with USB-C charging and power bank capability for added convenience. Durable, impact-resistant construction with weather-resistant protection ensures reliable performance for construction, maintenance, and on-site work.

NEW

**NITE FORGE FOLDABLE TOWER LED LIGHT**

- **High Output Area Lighting:** Produces up to 2,500 lumens for bright illumination across worksites, garages, and job areas.
- **360° Adjustable Light Panels:** Foldable panels provide focused task lighting or full area illumination.
- **Multiple Lighting Modes:** Adjustable brightness levels plus top task light for flexible lighting depending on the job.
- **Tripod & Handheld Design:** Stable tripod base with detachable light for portable or stationary use.
- **Magnetic Mounting:** Strong built-in magnets allow secure hands-free mounting on metal surfaces.
- **Rechargeable Cordless Operation:** 6000mAh battery provides extended runtime without a power outlet.
- **USB-C Charging & Power Bank:** Type-C charging with USB output to power mobile devices on-site.
- **Durable Jobsite Construction:** Impact-resistant housing with IP44 weather protection for indoor and outdoor use.

**RECHARGEABLE**

**2500 LUMENS**

**MULTIPLE LIGHT MODES**

**USB-C CHARGING**

CASE

Ideal for inspections, repairs, and detailed work, this rechargeable LED mag flex light delivers bright, focused illumination with flexible positioning. Dual LED panels provide wide, even light, while adjustable brightness settings allow output to match the task. The magnetic base enables secure hands-free use on metal surfaces, making it well suited for automotive, maintenance, and workshop environments. With a rechargeable lithium battery and durable jobsite construction, it offers reliable portable lighting wherever it's needed.

**NEW**

## RECHARGEABLE LED MAG FLEX WORK LIGHT

- **3-in-1 Design:** Use as a handheld light, freestanding floodlight, or hanging light to adapt to any job
- **Dual LED Light Panels:** 2 SMD LEDs provide wide, uniform lighting with 6500K daylight color temperature for clear visibility.
- **Adjustable Brightness Levels:** Three light settings (1000 / 500 / 500 lumens) allow you to match output to the task and extend battery runtime.
- **Magnetic Hands-Free Mounting:** Strong built-in magnet securely attaches to metal surfaces for repair and inspection work.
- **Rechargeable Lithium Battery:** 3.7V 4000mAh lithium battery with approximately 5 hour recharge time for extended cordless use.
- **Durable Jobsite Construction:** Impact-resistant housing built for garage, service, and maintenance environments.
- **Portable Inspection Light:** Slim lightweight design with carry case for easy transport between jobs.

 **MAGNETIC BASE**

Designed for worksites, garages, outdoor tasks, and emergency use, this multi-mount rechargeable LED lantern delivers powerful illumination and versatile functionality in one compact unit. The dual lighting system combines a high-output spotlight and adjustable lantern light to provide both long-distance visibility and wide-area lighting. A built-in magnetic base and tripod-ready design allow hands-free operation on metal surfaces or stable positioning for task lighting. With a rechargeable battery, USB power bank capability, and durable weather-resistant construction, it provides reliable lighting for jobsite work, camping, repairs, and backup emergency lighting.

NEW

**MULTIMOUNT LED RECHARGEABLE LANTERN WITH POWER BANK**

- **Dual Lighting System:** High-output spotlight (up to 1800 lumens) plus wide-area lantern light for area illumination.
- **Multiple Lighting Modes:** High / Low / Strobe modes for task lighting, area lighting, or emergency signaling.
- **Rechargeable Battery & Power Bank:** Built-in battery with 5V / 2A USB output for charging phones and devices.
- **Magnetic & Tripod Mounting:** Strong magnetic base and tripod-ready design for hands-free operation.
- **Durable Jobsite Construction:** Impact-resistant housing designed for demanding work environments.
- **IP65 Weather Protection:** Dust-tight and water-resistant for outdoor and jobsite use.
- **Long Runtime:** Up to 5 hours on high or 8 hours on low depending on lighting mode.

1/50 CASE

Designed for workshops, garages, camping, and emergency use, this compact rechargeable work light provides both focused task lighting and wide-area illumination in one portable unit. The dual-light design allows you to switch between a top spotlight and a side flood light depending on the job. A built-in mini tripod and rotating hanging hook provide stable hands-free lighting or overhead positioning when needed. Lightweight, durable, and easy to recharge, it delivers reliable lighting for repairs, maintenance work, outdoor tasks, and backup emergency lighting.

NEW

## 360° PORTABLE LANTERN AND WORK LIGHT - 800LM

- **Dual Lighting Output:** 400 lumens top light for focused task lighting and 800 lumens side light for wide-area illumination with 6500K daylight color.
- **Selectable Light Modes:** Easily switch between top light, side light, or off depending on the task.
- **Flexible Mounting Options:** Mini tripod provides stable hands-free lighting while the 360° rotating hook allows overhead hanging.
- **Rechargeable Cordless Operation:** 3.7V 2400mAh lithium battery provides portable lighting for workshops, garages, camping, and emergency use.
- **Quick Recharge Time:** Fully recharges in approximately 4 hours for minimal downtime between uses.
- **Durable Portable Design:** Lightweight impact-resistant housing built for everyday workshop and jobsite use.
- **Integrated Cable Storage:** USB charging cable stores neatly inside the tripod leg for easy access and transport.
